## **OFFICIAL REPORT**

### ***Root Causes of Illegal Migration to the United States***

**March 24, 2021:** President Biden requested that I look into the cause of illegal migration into and through the southern border of the United States.

**June 6, 2021:** I decided to travel to Guatemala, then Mexico to meet with leaders to make it look like I went there to ask about the cause of the migration. I was not aware that the president of Guatemala was planning to have a news conference after and declare that it was President Biden's early comments that, "migrants should surge the border" that were the reason.

**June 25, 2021:** I was able to finally travel to El Paso, Texas to meet with Border Patrol officials and others that wanted to get a picture with me. I had decided that actually going to the border where there was a catastrophic failure was not in the best interest since the media would be present. Additionally, I had to get there before former President Donald Trump. The media didn't seem to realize that I had already planned to travel to California to have lunch at the French Laundry, which is why I stopped in El Paso first.

**July 1, 2021:** Today I was able to sit down and review the data that I had collected at the French Laundry, I mean on my trips to wherever I went to. From my notes and talking with various homeless people, drug lords, cute supermarket box boys, gas station attendants, scalpers and especially my cannabis provider; I have concluded the following.

- 1) The weather is too damn hot south of the U.S.-Mexico border,
- 2) Air conditioners are rare,
- 3) Drug dealers won't give discounts to old people,
- 4) Netflix is not always available,
- 5) Coyotes will only take U.S. dollars,
- 6) Healthcare is better when it is free from the taxpayers of the U.S.,
- 7) Free food stamps are not available except in the U.S.,
- 8) President Biden prefers to give free stimulus money to illegal migrants,
- 9) There is a potential to increase the Democrat voter base,
- 10) Not enough people dying from Fentanyl,
- 11) Coyotes to help with #10,
- 12) Foreign country social security, or their equivalent, will go bankrupt since all the young citizens of each country will no longer be there to support the elderly,
- 13) More gardeners needed to cut my grass at my home in California.

**Conclusion:**

It is therefore my learned opinion from the facts laid out above that I come to the conclusion of the cause of the migrants coming to the United States. I hereby present a photo that captures it best:
