# White House Violating 1<sup>st</sup> Amendment?

The Constitution is very clear. **First Amendment:** *“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.”*

The very first amendment to the U.S. Constitution was written to specify what the government cannot do against American citizens, yet the White House press secretary confidently said, and without any hesitation, that the White House was using social media platforms as agents of the United States Government to censor the speech of its users and advocating the ban of users due to posting of information that does not align with the White House. Speech that is not false, but simply contradicts the White House. This in addition to reports that censoring of private one-to-one (SMS) messages is being considered. What country is this? Are we seeing a Democracy turn into a Tyranny?

Reportedly, there is case law that prohibits this scenario where the government uses civilian agents to do its bidding in an attempt to subvert Constitutional law.

The Biden Administration is truly showing its colors when it comes to unifying America after the election. In reality, what we are seeing is the dividing and destruction of America. Foreign news outlets have even made comment that Biden should be impeached, but with Congress controlled by the Democrats, it's not likely to happen. Congressional elections are around the corner, and to correct a serious error, Conservative Republicans need to replace the Democrats.
